Honors/Awards: Dean's List 3 semesters

Cumulative GPA: 3.4 (Cum Laude)

COMPUTER SKILLS

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Godot, Unity

Core Skills: UI/UX Design, Wireframing, Prototyping, Usability Testing, Information Architecture, User Flows, Responsive Layout Design

SELECTED PROJECTS

Capstone Project: Designed and implemented the puzzle-solving user interface, improving clarity and accessibility for player interactions. Developed the main menu and screen UI for our puzzle adventure game, creating a cohesive visual experience that aligned with the game's puzzle-adventure aesthetic. Conducted quality assurance testing by identifying, documenting, and verifying bugs across gameplay and UI systems.

Blacksmith Site Demo: Collaborated with a client and project team to design a website prototype based on business requirements and user needs. Developed use cases, wireframes, and interface layouts while contributing to information architecture and UI design. Worked closely with the client throughout the project's life cycle to refine features and deliver a functional website demo that aligned with their goals.
